OK, good to know. I think we had considered the following as potentially being triggered:

- A letter on a Final Environmental Impact Statement (FEIS) that characterizes a residual serious concern (and/or proposes or implies that a supplemental analysis might be required)

Larry intends to try to connect with Alexis sometime today to discuss/strategize.

Thanks, Rob

Thank you; how/when do you envision briefing the political team, and do you want us to help set that up (after advance coord between Larry and Alexis). Or are you still thinking Alexis could send this without elevation?

Rob
